State Institute for the Blind,

The annual examination of the pupils of this institution took place on Wednesday. The award of praise for the excelliten by the leat manner in which teachers and pupils | this city: acquitted themselves on this occasion, is but a repetition of what has often occurred before. This is an exceedingly well conducted institution in every respect. 1t provides a pleasant home for children of the tenderest age, where parental care is bestowed upon them, and every precaution taken to guard them from every bodily barm, while their minds are educated, and a practical knowledge of useful trades and employments is imparted. Young men and women who have unfortunately had no opportunity, heretofore, to avail themselves of the benefits of such an institution, find here kind and sympathizing terchers to aid them to recover their lost ground in education. The examination showed that therough work on the part of the teachers had been done, seconded by Here the mighty part application by the pupils, who evinced, we And the future gloom thought, more than an average of intellec- Here, compressed, artual capacity. Mrs. Whiting is that the matron, Mrs. Whiting, is quite successful in the discharge of her responsible duties. On the whole, all concerned in the management of the institution may well feel satisfied with the result of their labors. These who attended this examination were highly pleased, and left, fully convinced that every thing is being done here that can be, for the elevation and improvement of the unfortunate blind of our State.

Opening of the Milwaukee Pair.

The Milwaukee papers contain lengthy accounts of the opening exercises of the Fair which were held soon after 12 o'clock of our sous and brothers on Wednesday. The Sentinel says:

"The doors of the Main Hall were thronged by an impatient crowd long before the hour of opening, and at twelve o'clock the immense concourse poured into the building, filling every available standing place on the main floor and in the gales. It was an animating sight, and one not easily forgotten by those who witnessed it. At balf-past twelve the active preparations were suspended, to listen to the opening exercises, which were announced by Gen. Starkweather. The exercises were commenced by Rt. Rev. Jackson Kemper, Bishop of the Diocese of Wisconsin, who made an appropriate Prayer.

At the conclusion of the prayer the Band played the Star Spangled Banner, after which the ode was read. The band after which the ode was read. The band then played Hail Columbis, when Maj. Gen. Cutler was introduced to the audiance and made a brief but happy speech.

Rev. Dr. Kelly and Judge Hubbell followed in well simed speeches, when the band played several patriotic pieces.—

launched on the sea of popular favor. From the descriptions given of the building, its decorations and the contributions, we should judge that the enterprise is likely to equal if it does not surpass the expectations of its projectors. We observe that

the contributions of money alone thus far reach the hondsome figures of \$17,000. MEETING OF THE NORMAL SCHOOL RE GENTS .- The Board of Normal School Re gents have just held their annual meeting here. There was a pretty full attendance, 7 out of 11 being present. The officers

were re-elected as follows: President-C. C. Sholes, Vice President-Hanner Robbins.

Secretary-Silas Chapman. There was not much business of impor

tance transacted. It was voted to distrib ute aid to the amount of \$40 to each of the forty pupils who had passed the re quired examination, to the several school sided by the Board which had maintained normal classes.

The Board adjourned to September, when it meets to decide on the location of a normal school, on the establishment of which in different localities on the Massachusette plan, it has resolved, and invited proposals for sites. - Madison Journal.

Breckenricze.

(From the New York Commercial Advertiser.) John C. Breckenridge has escaped the avenging arn. of justice, but only to enter upon a career of wretchedness made doubly miscrable by repinings and regrets. Henceforward the once idol of the South will be a "man without a country," wanderer upon the face of the earth. He may find sustenance and a few friends in his exile, as did Arnold, but shunned and despised by the mass of humanity, he can only look forward like his predecessor to a miserable existence and a broken heart.

There is no forgiveness, no reprieve in store is no torgiveness, no reprieve in store for the traitor who essayed through the opportunity of his exalted position to betray his State, and without so much as the feeble pretense of seession, led the young men of Kentucky interebellion and with the state of betray his State, and without so much as the feeble pretense of venession, led the young men of Kentucky into rebellion and ruin. (From the New Orleans Times, 19th.) We have received some very interesting and highly important intelligence from Mexico, fully confirming the popular inpression in this country concerning the character of the relations existing between Louis Napoleon and his representatives in Mexico, Marshal Bazaine on the one hand, and the Archduke Maximillian, the pup-pet whom he has placed before the world as the head of the Mexican "Empire," on the other. Our informant is a gentleman of education and responsibility, fresh from the city of Mexico, and thoroughly ac-

quainted with the state of affairs there: It has often been remarked that Maximillian would be forced to leave Mexico very soon after the termination of the great American rebellion. It is not gen packages be add at Washington, and reg not remembered more than the insects crally known how near the Archduke be the United State of Office, returns by check of yesterday. Will you thus live and die, fore the close of hostilities in this country, was to his departure from this continent. He made up his mind to leave voluntarily, the immediate cause for his determination being, not apprehensions of the interven-tion of the United States, but because of the unpleasant and apparently inextricable nature of his difficulties with Marshal Bazaine, the French General, who really holds, as the proxy of Napoleon, the usurped Government in the Mexican capital, in the hollow of his hand.

Gen. Bazaine is the grand treasurer of all the revenues of the "Empire," customs, dues, taxes, etc., which he collects and holds for the benefit of his august master, the Emperor of the French, allowancing Maximillian, in accordance with orders from France. This custodian of public funds does not deal too liberally with the Archduke; in fact, for lack of funds the latter has not been able to pay the troops, upon whom rests all his shadow of authority, with anything like respectable regularity. About the middle of last March a great deal of discontent was manifested by the army on account of this unsatisfac-tory state of the pay question, the trouble not being much short of actual mutiny. To the Marshal, then, Maximillian applied for the hard cash to satisfy their somewhat imperative demands. The "Imperial" Government had little to hope for if the money should not be forthcoming. But Gen. Bazaine refused the supplies prayed for. He agreed to pay over the amount required, provided the sanction of Napoleon was first obtained for such a disposition of the money in his hands. To this Maximillian responded by a protest that it would take at least a month to obtain a reply from the French Emperor, and that meanwhile the discontent of the troops was daily increasing, and would become positively dangerous if such a delay should be allowed to take place. Marshal Bazaine continuing inexorable, Maximillian finally threw up his hand, and prepared to leave the country. He ordered the pack-ing up of his personal effects, and, we are informed, had his carriage ready for the beginning of his hegira, when Bazaine, seeing that matters were going too far, consented to advance \$75,000 of the sum required, with the understanding that the question as to the payment of the balance needed should be referred to Napoleon for his decision. Accordingly, Maximillian

returned to his scepter and dominion.

The Archduchess is a person of more resolution and decision of character, and exerts a very great control over her vacil-lating husband. In almost every move-To once obtain it is a difficult task, but she devotes no mean abilities, with persistent energy, to secure it. THE CULTIVATOR OF CORN .- The large amount of corn to be planted this season, renders it necessary for the producer to have some improved implement for its cultivation. To meet this demand, I am now building "The Budger State" gig corn planter.

After six months experimenting with different models, we have one which we are willing should be put to the test, and that it should stand or fall on its own merits. A lengthy description does not seem to be necessary. We will simply say that we are confident it will perform all that FURNITURE any cultivator will, and all that any farmer will require of it. It has six shovels, or four, as desired. The shovels are so arranged as to cultivate wide or narrow shallow or deep; and they all have a very easy side motion. To say that they are made under the supervision of G. F. Lane, is a sufficient guarantee that they will be well made. In fact, they will be warranted in every respect.

The Badger State gig cultivator will be sold this season at \$50 at the shop. Call and see it at the shop one block south of the Hyatt House.

They have taken the highest premiums at the recent State Fairs of fifteen States; they have, moreover, received the warmest encomiums from all persons who have ever used the machines, and those who have had opportunities to compare the different styles of machines, generally prefer Grover & Baker's to any other. They do the work neatly and well, do not get out of order, and are readily adapted to any kind of sewing. Morrell's Electra Magnetic Fluid. It has been a settled scientific fact that disease is the result of the disturbance of the magnetic forces of the system. That being the case, the natural conclusion of magnetic circulation, such as rheuma-tism, neuralgia, palsy, bronchitis, con-sumption, stiff limbs, swelled joints, spasms, cramp, fits, deafness, sore eyes, scrofula, syphilis, cancers, white swelling, prolapsus and other female diseases, &c. Morrell's Magnet Salve is highly recommended for the cure of cuts, bruises, old sores and burns. If applied to a burn immediately, it will stop it from blistering, and take out thr fire at once.

The Noted Analytical Physician,

DR. V. CLARENCE PRICE

The only Physician of his hind in the West, has met with the greatest shores, gained a Lotter reportation, effected more complete enter, visited places the longest without missing an engagement, than any physician that travels, has outlined them all and become noted for his shift in treating all chronic discussed the

head nerves, kidneys bladder, womb and blocd, affections of the urinary organs, gravel, scorfula, rhoumatism, catarrh, asthmi, bronchitis, dyapopala, &c.

Our practice, not one of experiments, but of twenty years standing, founded on the laws of Nature, with years of experience and evidence to sustain it. Bo not tour down, or we sick to make well, no harsh treatment, no trifling, no flattering. We know the treatment no trifling, no flattering. We know the two discasses exclusively, no encouragement without a prospect. Caudid in our opinions, reasonable is our charges, claim not to know everything, or cure everytody, but do claim to reason and common sense. We invite the wick, no matter what their aliment, to call, investigate before they abandon hope, make interrogations and decide for themselves, will cost nothing as consulted as is free. This is the fifth year that I have visited this place and I shall make my visits for years regularly on the same days of the week every eight weeks.

[Translated from the French.]

After having played on the Fiano of Mesers. Bushe & Go., it is impossible not to hear testimony to their qualities, which have acquired for them the eminent reputation which they enjoy. The Pianos of their manufacture, on which I have played, are exceedingly remarkable for their qualities. The base is powerful without havehous, and the upper notes #weet, clear and harmoniously mellow, (chrystaline,) and I do not hesitate to express in regard to these instruments my entire estimated too, and to doctare that they are equal if not superior to the less transferred in Europe of this country by the most celebrated makers.

CLOTHES WRINGER The only Wringer in use that is fastened to a tub by the Patent

CURVED CLAMP,

Which has an equal bearing on the tub the whole length of the Wringer, while all other Wringers are marely fastened to a SINGLE STAVE at each end. The Curved Clamp up to hiy affords the most accure fastening of any in mse, but it does not strain the tub like all other methods of fastenings. A child eight years old can accurely fasten the Wringer to any size TUB, POUNDING BERREL OR BOX.

The Rollers are fastened to the shaft under HALKY'S

This is entirely overcome by unity Haley's maken fastening, which not only prevents the Rollers range of coming toose on the shaft, but renders the use of the wayens with come with cog wheels.

The Rollers need no saljusting to wring ordinary clothing, but to wring very heavy articles, they can be adjusted as desired, which saves much hard labor, and straining of the Wringer.

The Rollers turn in boxes of hard maple wood, which are boiled in tallow, consequently need no olling; while Rollers that un on iron soon rust, which cause them to turn very hard unless frequently oiled. Oil has a very had effect on the rubber.

There is no iron about the Wringer that can come in contact with articles heins wunner.

nervine compound.

The Great Oriental

A most delightful EXHLIERANT CONFECTION-IZED, and has been the theme of song and story among the Persians, Arabians and Assyrians. True Secret of Youth and Beauty.

It is a remedy that ought to be in every House on account of its harmicsmess and polency; and above all, because of its exceeding cheapness. It is the chespest remedy in the world. Colds readily yield to it.

The writer, the speaker, the student and the business man, under its influence, seem to gather a new inspiration and new energy, a realiness and keenness of perception unknown before. To Clergyman, Actor, singer, Lawyer, or in fact any one should be without it den, Grand says. It is of great value for the wounded and to be and that it is harmless.

Mai, Gen Mitchel, the relibrated Astornomer says the Hasheesh Candy helped him whom all other remedies at elt or relieve him, and that it is an elegant compound. The celebrated Dr. Moll of New York, says the true medicinal statues of the Hasheesh Candy are vary great; much greater thus yet superus. I could wish that a remedy so potent for good as it is were more generally in use.

SIMPLE. PRACTICAL. THOROUGH.

A Small Investment That will bring Ample Return.

AT ONCE

Our machines are as perfect as ever any machines will be. They will wash in the most perfect manner all fabrics from a coller to a blanker, with the greatest case. They will not only serve three fourths of the labor and soap, but garments will last twice as long whose washed in them.

A Bank-bill can be placed in the machine with a dozen dirty collars, and the collars washed clean, without doing the least lajury to the bill. It is the simplest as well as the chespest machine sow in use.

The washing is entirely under the control of the operator, so that dirty parts of agarment can be washed without unnecessarily rubbing the clean parts. This machine can only be appreciated by seeing it in operation. Now on exhibition and sale by N. GRISWOLD, Agent for Janesville and vicinity.
